

8/2015

I had the pleasure of meeting Shayan at a previous barn and after having Bocelli for 6+ years, decided that he needed a tune up and I wanted him to be trained properly, to have a good life for himself and us together. Prior to this decision, I had a few lessons with Shayan and felt that his determination to train me to ride properly, however, time prevented me from taking the lessons I had planned on. Bocelli was going to stay 3 months, however, Shayan said that Bocelli needed more training and long story short, over a year+ later.

Shayan is definitely knowledgeable and a European certified horse trainer. His horsemanship skills truly transformed Bocelli to be the horse he is. Not only did he get a "tune-up" he learned to use his hindquarters properly with impulsion as well as many other dressage techniques. He is soft and supple to all tasks asked of him and transformed into a solid horse! I cannot say enough about the training methods of Shayan and would recommend anyone to select Shayan for training for horse "and" rider. He always has the horse's best interest as a priority and the rider to ride properly. Shayan is a perfectionist.

Thank you Shayan for transforming Bocelli and giving him an outstanding life to thrive!

Best wishes always,

Leslie
