

TESTIMONIAL FOR THE HORSE TRAINING PROVIDED BY SHAYAN RICHEL

During this past summer (2008) I took my small horse to Shayan Richet for some training. This horse, named Freedom, is an appaloosa. She was just over 5 years old and was green for riding. She had ground manners but some were not as good as others. When she was first brought in for training she was very stubborn and resisted commands. She would stand on her hind legs, run from you or just try to bully you. After two months of training by Shayan Richet she is now very easy to ride. She responds to her commands, easy to steer and very safe. She developed a very good bond with Shayan and you could tell she respected him. I had no idea how much of a challenge she was going to be because of how strong and powerful Freedom was, she could push you to limits at times. We are now working her back at my farm doing the normal things and hopefully she can be used as a search and rescue horse since she has instincts of wanting to check things out and willing to go places other horses would not. Shayan made this horse want to do things with you. After riding her we just take time and walk around and hang out together. She will follow me wherever I go. If it had not been for Shayan, we would not have known the potential she really possessed. If you want someone to recommend this trainer, you can call me. He is the real deal.
